Go ahead and publish the field trip list , it looks great

Below find my March Ramblings for insertion

March Presidential Ramblings

Here we go again! It is now the time when we all have burned our last bit of imagination of our next rocking adventure and have the tools ready and now finally the trip list is being published.

Our field trip directors have put together a fantastic addenda for our summer of getting dirty. With the addition of the meetings /mini-fieldtrips what more can one ask for. Oh I forgot the picnic and the Chaffee County Fair. I get tired just thinking about it.

I have spoken with many other clubs across the nation and all seem to feel that for some reason this year will be a banner year.

Ralph tells me that the Antero trips will be divided as to difficulty on the top this year also. It seems that your truly has trouble with high angle collecting areas and therefore he is leading us to an easy and a difficult collecting areas. Thanks

The Marshall pass trip has been told to Lorie the road has been fixed and if the spring doesn't rekill it we should be on the other side this year . Wow better geodes.

Be aware as we grow and become more popular (great) we also face the delima of our collecting sites and leaders can only handle so many ehicles and people and it may become necessary to limit the # of participants on some or all of the tips . So as we my ask you to signup early with your interest, please be as

certain as possible that you will be there. It would not be fun to find we had to not let some go because the sign up was full and then was not full.

Oh well enough . Have a great year and see you at the next meeting / field trip

Dick

03/01/08

Funny I had all sorts of smileyfaces and colors and different types and sizes in there really jazzed it up . oh well ok.

Thanks again for your fine jobs of letting our members know about the club.
